

Synthetic analytics example

01 Jun 2026 to 31 Aug 2026, inclusive / UTC

All accessible projects

Consumed CU	Model jobs	Models used
39,000.00 CU	594	4

Where consumption is concentrated

Top six models by generation CU. Full model details are in the accompanying CSV.

Video model B		18,900.0
Image model A		12,600.0
3D model C		7,200.0
Audio model D		1,800.0

Model consumption by month

2026-06		10,125.0
2026-07		14,175.0
2026-08		16,200.0

People & interpretation

Identity consumption for the original full period. API identities and unknown types are labeled separately.

Identity	Type	CU
Artist 01	Human	23,500.00
Artist 02	Human	11,000.00
Automation	API identity	4,500.00

Reconciliation

Reported model CU: 40,500.00. Model minus overall CU: +1,500.00. This difference is not allocated to models.

Coverage and next questions

Scope and dates match the MCP request; access is limited to the connected credential.

Consumed CU is after discounts. Model CU measures generation activity; the difference from overall consumption is not allocated to models.

CU and job counts measure usage, not productivity, ROI, seat activation, or time saved.

Overall and identity consumption cover the original full period. Model filters apply to generation activity only.

Per-user usage queries reconcile to every model's CU, API-key CU and job count.

Discuss which repeated workflows should expand, whether concentrated usage reflects specialist work, and what delivered-output evidence would establish productive adoption.

Models by identity

Top 5 per identity, ranked by CU. Both generation CU and job counts come from user-filtered MCP usage.

Identity	Model	CU	Jobs
Automation	Image model A	3,600.00	120
Automation	Audio model D	900.00	30
Artist 01	Video model B	12,600.00	60
Artist 01	Image model A	7,500.00	250
Artist 01	3D model C	3,600.00	12
Artist 01	Audio model D	600.00	20
Artist 02	Video model B	6,300.00	30
Artist 02	3D model C	3,600.00	12
Artist 02	Image model A	1,500.00	50
Artist 02	Audio model D	300.00	10

Who uses each model

Top five identities for the top ten models, ranked by CU.

Model	Identity	CU	Jobs
Video model B	Artist 01	12,600.00	60
Video model B	Artist 02	6,300.00	30
Image model A	Artist 01	7,500.00	250
Image model A	Automation	3,600.00	120
Image model A	Artist 02	1,500.00	50
3D model C	Artist 01	3,600.00	12
3D model C	Artist 02	3,600.00	12
Audio model D	Automation	900.00	30
Audio model D	Artist 01	600.00	20
Audio model D	Artist 02	300.00	10
